

Abdullah Gül University (AGÜ) Library continues to diligently carry out its activities aimed at achieving Sustainable Development Goals SDG-4 Quality Education and SDG-10 Reduced Inequalities through the “I Read with My AGÜ Library Project.” In this context, it organizes various workshops and activities for elementary, middle, and high schools wishing to visit the library. In 2025, students participating in these activities visited the AGÜ Library accompanied by their teachers, toured the library, and read books prepared for them according to their age groups and levels. Afterwards, they attended informative presentations about libraries in our university's conference halls, accompanied by discussions on the functions of libraries and their contributions to their educational lives. Following the discussion, they participated in creative drama and book reading workshop activities prepared for them.
