

2022 Donation Publication Submission Satisfaction Survey Evaluation Report

1. Introduction

As part of the "AGU Library Book Box Project," conducted by the Abdullah Gül University Library and Documentation Department, an evaluation survey was conducted to measure the satisfaction levels of institutions receiving publications in 2022. This report was prepared based on feedback received from four different institutions.

2. Participating Institutions

- Mehmet Akif Ersoy Secondary School
- Balıkesir National Library
- Ataşehir Adıgüzel Vocational School
- Ağrı İbrahim Çeçen University

3. Summary of Survey Results

Question	Joint Assessment
Do the submitted posts match the selection list?	All institutions stated that the submitted publications matched the selection list.
Satisfaction level with the institutional library	All participants rated their satisfaction level as high. Average satisfaction: 4.8/5
Beneficiary satisfaction level	Beneficiary satisfaction is also high. Average: 4.8/5

4. Highlights from Participant Opinions

- It was stated that a donation campaign could be organized among students, and thanks were expressed.
- A serious and meritorious work approach was appreciated, and satisfaction was expressed.

5. General Evaluation and Recommendations

The survey results indicate that institutions welcome the donation publication submission practice. Based on the participants' feedback, the following recommendations can be developed:

- ☐ Encouraging student-based fundraising campaigns
- ☐ Ensuring continuity in communication and developing institutional feedback mechanisms
- ☐ Conducting needs analysis based on annual planning

6. Conclusion

A survey conducted as part of the 2022 donation publications delivery activity revealed that the program was implemented as intended and generated satisfaction within institutions. The continuity of such activities, along with the proposed areas for improvement, will continue to have a positive impact on education and culture.
