

Abdullah Gül University (AGU) Library continues to carry out its activities with determination towards the goals of SDG-4 Quality Education and SDG-10 Reducing Inequalities, which are among the Sustainable Development Goals, with the "I Study with My AGU Library Project". In this context, it organizes various workshops and events for Primary Schools, Secondary Schools and High Schools who want to visit the library. Students who participated in these events in 2023 visited the AGU Library accompanied by their teachers and read the books prepared for them in accordance with their age groups and levels. Afterwards, they attended talks in the context of the functions of libraries and their contributions to educational life, accompanied by informative presentations about the libraries organized for them in the conference halls of our University. After that, they participated in the creative drama and book reading workshop prepared for them.
