Manual proxy setup

Use a proxy server for Ethernet or Wi-Fi connections. These settings don't apply to VPN connections.

Use a proxy server

On   *click here*

Address	Port
95.183.226.12	9090

enter the numbers on the screen

Use the proxy server except for addresses that start with the following entries. Use semicolons (;) to separate entries.

☑ Don't use the proxy server for local (intranet) addresses
